

Monitoring and Reporting Violation

Failure to Submit a Disinfectant Level Quarterly Operating Report (DLQOR)

The City of East Tawakoni water system PWS ID 1900011 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) In Title 30, Texas Administrative Code (30 TAC), section 290, Subchapter F. Public water system are required to properly disinfect water before distribution, maintain acceptable disinfection residual within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether of not your drinking water is safe from microbial contamination.

This violation occurred in the monitoring period of the 3rd quarter of 2024 (July thru September of 2024).

We are taking the following actions to address this issue. 4th Quarter has been submitted and the City is back in compliance. Moving forward the Water Director will be submitting these reports himself.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes. Schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Kyle Washburn, 903-474-4223
